

Summary:

A UX designer with three years of experience working at a digital agency, and with a bachelor’s degree in interaction design. Skilled in user testing, wireframing, and prototyping for digital products. Additionally, has experience in both computer science and technical communication.

Experience:

UX Designer at Mediacurrent 2021–2024

- Role involved designing and wireframing webpages, conducting user and client interviews, writing competitive audits, and collaborating with a variety of disciplines.
- Collaborated with professionals in many different fields, such as strategy, marketing, development, graphic design, and accessibility consultation.
- Worked with multiple brands such as Harvard, Yale, Georgia Department of Administration, and the Cleveland Museum of Art to create user-centric, digital solutions for websites.

UX Design Intern at Colliga Apps 2021

- Role involved collaborating with strategists to design and wireframe a mobile app. Stakeholder reviews were conducted weekly to iterate on designs.

Education:

Kennesaw State University 2018–2021

- Bachelor’s degree in Interaction Design, Spring 2021
- Minor in Technical Communication, Fall 2020
- Specialty in Computer Game Development
